industry for 25 to 40 years.

Because of love, we are dedicated, thus we can
last long.

This will lead to professionalism and the leading
position.

HOLLYWIN

2017中国海鲜消费占比提高

In 2017, proportion of seafood consumption in China has increased.

—中国海产行业在全球资源丰富地区的布局

—国内零售网点布局

—仓储冷链的串联打通

消费者们对海产品的需求更是日益见长！

- Global distribution of China's seafood industries in areas with rich resources

- Distribution of domestic retail networks

- Connection of warehouse cold chains

Demand of consumers for seafood is ever-growing!

—收入越高对水产蛋白的摄入比例越高

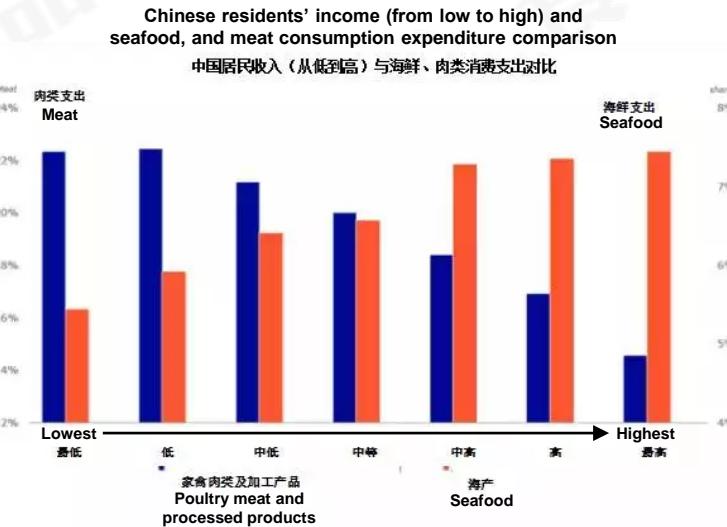

—2017年7月11日，国家统计局公布了上半年国民经济运行情况，GDP同比增长6.9%。

所以大众消费的崛起带动海产行业大步前进

- The higher the income is, the higher proportion of intake of aquatic protein is.

- On July 11, 2017, the National Bureau of Statistics announced the operational condition of national economy in the first half, and GDP has a year-on-year growth of 6.9%.

Thus, the rise of mass consumption has led to advancement of seafood industry.

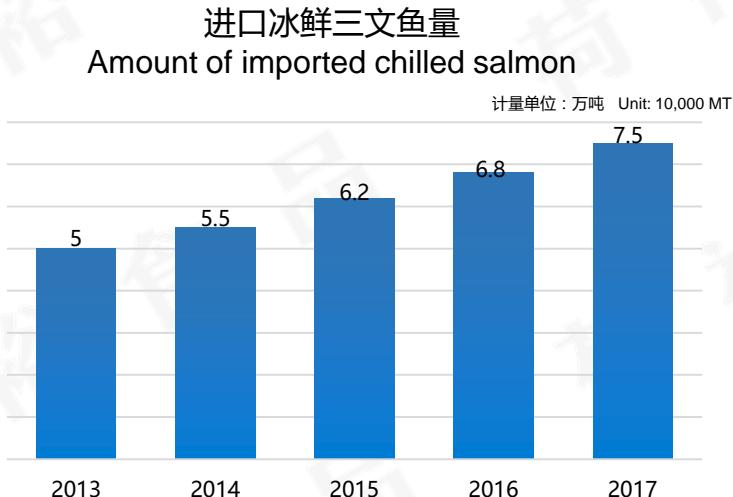

中国进口三文鱼约13万吨/年

China imports about 130,000 MT of salmon annually

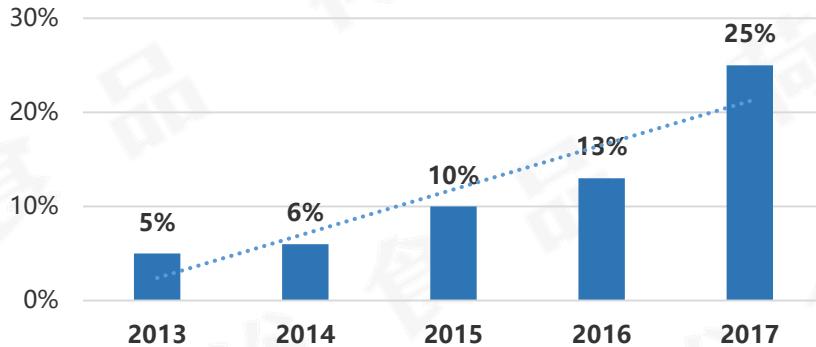

三文鱼是进口水产品消费力的主力军，而冰鲜三文鱼又占了半壁江山，每年以10%速度上升

Salmon is the main force in consumption of imported aquatic products, while chilled salmon takes up a large proportion, with an annual increase rate of 10%.

冷冻三文鱼原料很大数量也用于Salmon Sashimi

Frozen salmon raw materials are greatly used for salmon sashimi.

- 消费者对fresh和refresh不敏感
- 冰鲜运输成本的高昂
- 冰鲜运输时间不能保证产品新鲜和安全的温度

- Consumers are not sensitive to fresh and refresh products.
- Transportation costs of chilled products are high.
- Transportation time of chilled products can not guarantee freshness and safe temperature.

要尽快将冰鲜送达更多的城市
In order to deliver chilled products to more cities as soon as possible.

O2O新零售模式推动了冷链物流的大力发展

O2O new retail model has greatly promoted the development of cold chain logistics.
